

Kinesense

Player Manager

CCTV player manager for Frontline Police

It's now easy and fast to find the right player to play video, which is speeding up our charge process."

Imaging manager

CCTV footage helps solve crimes and prosecute criminals, but dealing with and managing different proprietary video formats results in investigative delays.

Kinesense PlayerManager is a software tool designed to reduce time and the frustration dealing with video formats. It enables time-efficient video player sorting, storing and sharing across the organization. Investigators can use it to find the right player, select images and clips and export for suspect charging or interview.

PlayerManger now comes with 1000+ virtualized player library and screen capture tool for image and clip export. Available as desktop, USB or networked solution.

Kinesense **PlayerManager** key benefits:

- Simplifies the distribution of players to Investigators
- Makes playing proprietary video formats easier
- Eliminates player conflicts and incompatibility issues
- Enables quick image and clip selection
- Speeds up charging decisions
- Flexible deployment

Kinesense PlayerManager helps you manage the digital video players across your organization. Contact us at info@kinesense-vca.com to find out more about how Kinesense technology can make video investigations easier.
